

**REMARKS**

Applicants hereby submit a Sequence Listing in paper and computer readable form together with a verification statement to fulfill the requirements of 37 C.F.R. §1.821-1.825. The amendments in the specification insert the paper copy of the Sequence Listing and sequence identifiers in the specification. No new matter is added.

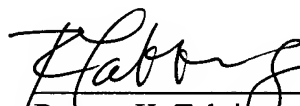

Applicants have *not* used the terms in the sequence listing, such as "artificial sequence" and "synthetically generated" to describe the origin, identity, or immunological properties of certain disclosed sequences. Rather, these terms only reflect that the sequences were identified by an artificial method, for example, phage display.

Claims 1-37 are pending. Claim 29 is amended to insert sequence identifiers.

Please apply any charges or credits to Deposit Account No. 06-1050, referencing attorney-docket no. 10280-059001.

Respectfully submitted,
